# Chocolate Chip Cookies - Recipe:

## You will need:

- 60 ml coconut oil, melted (1/4 cup)
- 45 ml plant milk (~5,5 tbsp)

Cookie mix ingredients: Oat flour, pea protein powder, brown sugar, a pinch of salt, baking soda. Mixture for 13 big or 18 small cookies.

One (big) cookie has: 153 cal, 16g carbs (9,5g sugar), 7g fats, 5g protein

## Instructions:

- Remove chocolate chips from the top, and move the dry ingredients to a bowl.
- Add the wet ingredients, and mix well.
- In the end, add the chocolate.
- On a baking tray, add a baking sheet, and make small balls, and press them down, to form a cookie shape.
- Then, refrigerate the tray for at least an hour, for best results.
- Bake at 170 degrees for 14-15 minutes.
- Let the cookies cool down for ~20 minutes, then enjoy! :)
